

OFFICIAL LIST OF THE BIRDS OF PENNSYLVANIA
Pennsylvania Ornithological Records Committee
Nick Pulcinella - Secretary

The Official List of the Birds of Pennsylvania was last published in 2006 (PB V20:184-189). One of the responsibilities of the Pennsylvania Ornithological Records Committee (P.O.R.C.) is to review the status of all species on the state list and to publish an Official State List every five years. The committee has completed its assignment and the following list is the result of its work.

Definitions

CLASSIFICATION OF RECORDS

Class I: An accepted species documented by identifiable specimen, diagnostic photograph, or diagnostic recording.

Class II: An accepted sight record documented independently by two or more observers.

Class III: An accepted sight record documented independently by one observer.

The records must meet Class I criteria to be included on the Official List. Species in Class II and Class III are accepted to the **Provisional List** until they can be elevated to Class I status through submission of physical evidence (specimen, photograph, audio or video recording).

STATUS DEFINITION

Regular: Species recorded 8,9, or 10 of the last ten years.

Casual: Species recorded 4,5,6, or 7 of the last ten years.

Accidental: Species recorded 3 or fewer of the last ten years.

Extirpated: A previously regularly occurring species that has not been recorded in fifty years.

Extinct: Species which no longer exists.

Note: These definitions reflect the number of years in which the species has been recorded, not the number of occurrences within one year. Therefore, 100 occurrences in one year in the last ten years would still be classified as Accidental.

DOCUMENTATION

Bold-faced/Underlined species and any species not already on the list are classified as rarities, and sightings of these species therefore require a specimen, photograph, recording, or one or more written descriptions for consideration of acceptance by P.O.R.C.

NOMENCLATURE

The taxonomic treatment and species sequence follows the 7th edition of the AOU checklist published in 1998 and changes made in subsequent supplements the 47nd (Auk 2006,

V123:926-936), 48th (Auk 2007 V124:1109-1115), 49th (Auk 2008 V125:758-768), 50th (Auk 2009 V126:705-714), 51st (Auk 2010 V127:726-744) and 52nd (Auk 2011 V128:600-613).

Provisional List – 8 Species.

Although no species is accepted on the official Pennsylvania list without documentation by specimen, photograph or tape-recording, the Committee may accept sight records (i.e. for species not on the state list) which are supported by written details alone. Such species are added to this "Provisional List". If acceptable documentation in the form of specimen, photograph, or video/audio recording finally becomes available, the species is then moved to the Class I list.

REQUESTS FOR CORRECTIONS AND RECORDS

This Official List should not be considered as the final word on Pennsylvania birdlife. It is only our knowledge to the present, and will be outdated soon after it is published. Undoubtedly, there will be errors, typographical or technical, and perhaps omissions. When these are noted or when authentic records are obtained for species that are not listed, that information should be forwarded to the Pennsylvania Ornithological Records, Nick Pulcinella, Secretary. 613 Howard Road, West Chester, PA 19380 nickpulcinella@verizon.net.
