<b>County</b>	Lancaster
<b>Location (City, Borough, Township)</b>	Marietta
<b>Exact Site (E.g. Name of park, lake, road)</b>	Wetlands - Riverview Park
<b>Habitat</b>	Wetlands
<b>Distance to bird</b>	approx 40 - 50 yards
<b>Viewing conditions</b>	clear, early evening
<b>Optical equipment used</b>	Canon 40 D, Tamron 200 - 400 mm
<b>Description</b>	Fairly far away. Scoped through my camera. Knew it was an area where wood ducks tend to congregate. Knew it was not a wood duck. Snapped a few pics. Looked for ID when I got home.
<b>Behavior (be as detailed as possible about what the bird was doing)</b>	Just hanging out with the wood Ducks. I did not take more than a few steps in their direction before they flew. I was still far away.
<b>Separation from similar species (How you eliminated others)</b>	Obvious from distinctive markings.

**Discussion – anything else relevant to the observation that will aid the committee in evaluating it:**

Not really relevant but this particular area is not well known. That is the beauty of this. I consulted an avid birder as to the ethics of me keeping this quiet. Hordes of people will spoil this area and its charm. I would prefer exact location not revealed.

Ann Pettigrew suggested me submitting this sighting. She did not feel the location would have to be published. Just a confirmed sighting.
