

**Tricolored Heron --- Mifflintown River Access on the Juniata River, Juniata County; August 28-29, 2007.
Lat-long. 40.5947941,-77.4149466**

Photo by Chad Kauffman. Even though this is a distant photo, you can still make out the light underparts on the Tricolored and compare its size to that of the much larger Great Blue Heron on the right.
