

PA Rare Bird Report

| | |
|--|--|
| Submission Date | 2017-07-22 18:11:00 |
| Observer's Name | Lynn Schaeffer |
| E-mail | at12midngt@aol.com |
| Phone | 4846953887 |
| Observer's Address | 956 Mill Creek Road Trexlerstown PA 18066 United States |
| Names of additional observers | Brother-in-law |
| Species (Common Name) | White Ibis |
| Species (Scientific Name) | Eudocimus albus |
| Number of individuals | 1 |
| Age(s) and Plumage(s) and Sex (if known) | Juvenile |
| Observation Date and Time | 07-17-2017 10:00 AM |
| Did you submit this sighting to eBird? | Yes |
| Link to eBird checklist | http://ebird.org/ebird/view/checklist/S38232396 |
| County | Lehigh |
| Location (City, Borough, Township) | Trexlerstown |
| Exact Site (E.g. Name of park, lake, road) | 956 Mill Creek Road |
| Habitat | Suburban backyard |
| Distance to bird | In hand |
| Viewing conditions | Clear day |
| Optical equipment used | Not needed |
| Description | Bird remains found by homeowner. Only the head and wings remained. Bird has distinctive hook-shaped bill typical of Ibis species. Black and white feathers on wings indicative of juvenile bird. |
| Behavior (be as detailed as possible about what the bird was doing) | Not applicable as only the remains were found. |

Separation from similar species (How you eliminated others)

Head/bill shape indicative of Ibis species. Feather coloration specified juvenile.

Discussion – anything else relevant to the observation that will aid the committee in evaluating it:

I (Frank Dickman) am submitting this report for the elderly homeowner. My email and cell number are included above.

Are you positive of your identification ? (Why or why not)

Yes. Features are specific to this maturity level of this species.
