County	York
Location (City, Borough, Township)	Dover
Exact Site (E.g. Name of park, lake, road)	Conewago Creek
Habitat	It was along the waterline.
Distance to bird	40-50ft
Optical equipment used	iPhone
Description	Bird was about 1ft tall.
Behavior (be as detailed as possible about what the bird was doing)	Bird was seen picking at something along the water line. It seemed completely un-phased by us and continued to go about its business as we passed.
Are you positive of your identification ? (Why or why not)	Im not, but I have several friends who ID'd it as a White Ibis and the people on Central PA Birders on FaceBook seem to agree.
Supporting evidence (check all that apply)	Photograph
