Dear Jerry,

Thank you for submitting photographic documentation of the Sandhill Cranes at Fairview of 19 April 1992. After careful consideration, we regret that we are unable to accept this record at the present time. Several committee members felt that the photograph was just too distant for a completely conclusive determination of just which crane species was involved. Although the chances of anything other than Sandhill Crane being involved are extremely small, they decided to err on the side of caution based on the documentation received. If you have any more supporting information for this record, we urge you to resubmit it to P.O.R.C.

We also encourage you to submit documentation of any rarities you may find in the future.

Sincerely,

Ed Kwater  
Chairman

Record # 248-03-1992

P.S. If it's any consolation, I personally voted for acceptance.
