

VERIFICATION FORM

Details must be submitted for all species of uncertain breeding status. They are noted on the field cards, "Safe Date" list and Summary Data sheet with an asterisk (*). In addition, many locally rare species will require verification at the discretion of your Regional Coordinator. If you discover one of these birds, notify your Regional Coordinator immediately!

Then, fill out and send this form to your Regional Coordinator. Asterisked birds will not be accepted without a "Verification Report Form." Include sketches and/or photos if possible. Your cooperation is essential to the integrity of the Atlas Project.
