DEAR: Barbara Hass,

Here are reprints of our pictures of the clay colored sparrow. It was here 5-16-89 to 5-18-89 at our feeder. It was mostly on the ground under the feeder, but the first time it caught my eye was on the feeder. It was 3-4 feet away when we were observing it and I did hear the bird song as well as see it & my husband took the pictures with Pentax K1000 35mm camera.
