Dear Mr. Kwater:

I have enclosed a tape of a
Clay-colored Sparrow and a copy of a field
sketch and photos of an Eared Grebe in
Lycoming County. The tape should be run
where it is set near, as most of the calls
are near the end. I ended the segment with
some spoken notes.

The clay-colored sparrow was paler than
the others, had a brown face patch bordered by
dark streaks, gray side of neck ~~to~~ extending to
gray nape - the breast & lower was a sandy
color with no spots or streaks. Back was strongly
streaked.
