Today I received a phone call from Andy Troyer indicating that a Summer Tanager had been frequenting a home suet feeder near the Village of Woodc PA route 86. The property owner has been seeing the tanager feeding at his feeders for over a week.

I went over to the home and spent an hour observing the bird from the kitchen window of the host in the rain. It had the markings of a female Sun It fed on the ground and on a suet feeder.

Andy Troyer and Marcus Troyer also observed the tanager.
